## Episiotomy Suturing / Perineal Repair Trainer

AR312

The AR312 Episiotomy Suturing Trainer provides highly realistic practice in the repair of mediolateral incisions and perineal suturing. Designed with accurate anatomical detail and lifelike tissue response, it allows trainees to develop essential skills with confidence. The model features an open rectum to verify stitch placement, reinforced layers to withstand repeated use, and suction feet to ensure stability during training. Supporting deep muscle, subcutaneous and superficial suturing, it offers a reliable platform for safe, hands-on learning in perineal repair techniques.

### Note

For enhanced realism this product is made from a lifelike material with a limited life span. This product is not covered by Adam,Rouilly's standard 2 Year Guarantee as the useful life of the product is determined by individual customer use.

### Skills

- Repair of a right mediolateral incision
- Handling and knot tying

### Features

- Accurate, life size anatomy with all relevant landmarks
- Improved material gives highly realistic feedback during suturing
- Open rectum for digital assessment and verification that the bowel has not been sutured
- Suited to deep muscle, subcutaneous and superficial suturing techniques
- Reinforced layer enables repeated training procedures to be performed
- Suction feet for easy, stable and secure attachment to work surface

This simulator is a non-serviceable item and will need to be disposed of, in accordance with local policy, after a period of use. The plastic outer case is made from fully recyclable material.
