WHAT IS THE AIRSIM COMBO X?

AirSim Combo X delivers comprehensive advanced airway and surgical training in a single solution. Featuring a realistic larynx and palpable landmarks, it supports both core airway management and emergency front-of-neck access, including needle and surgical cricothyroidotomy and percutaneous tracheostomy.

WHY PURCHASE THIS MODEL?

Realistic Anatomy:

Anatomically correct nasal cavity, which allows for important landmarks such as the turbinates to be clearly defined.

Versatile Training:

Cost-effective consumables which are quick and easy to interchange, perfect for a busy teaching environment. Inflatable tongue bulb to create tongue edema providing a variance during training.

Real-Time Feedback:

Realistic larynx which features palpable cricoid landmarks, laryngeal cartilages and tracheal rings to provide positive user feedback and easy identification of the sternal notch. Visual indicators of stomach inflation and lung expansion for immediate training feedback.

Durability and Cost-Effective:

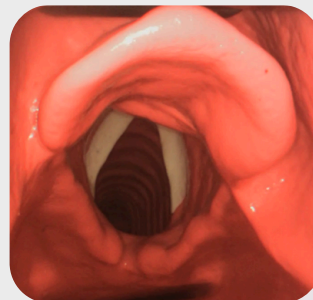

The AirSim Advance Combo X is certified to practice 80,000+ intubation cycles without fail and is supported by a 3 year warranty.

Modular Design:

Delivered ready to use in a durable carry case for easy transportation and safe storage.
