## WHAT IS THE AIRSIM DIFFICULT AIRWAY?

AirSim Difficult Airway is a dynamic training solution designed to replicate a wide spectrum of airway challenges, from moderate to severe. This model features adjustable laryngospasm, displaced larynx, trismus, neck mobility restriction, and tongue edema—enabling realistic DAS-compliant scenarios. Instructors can simulate receding mandible, airway obstruction, or front-of-neck access procedure simultaneously or in isolation.

### WHY PURCHASE THIS MODEL?

#### **Dynamic Anatomical Adjustments:**

Includes realistic features such as laryngospasm, displaced larynx, tongue edema, trismus, and mandibular anomalies (receding/protruding jaw).

#### **Instructor-Controlled Variability:**

All features are quickly adjustable to create isolated or combined scenarios for targeted learning and advanced simulation.

#### **Front-of-Neck Access Training:**

Supports needle and surgical cricothyroidotomy, as well as percutaneous tracheostomy—expanding procedural capabilities.

#### **Durability and Compatibility:**

Robust construction designed for repeated use and fully compatible with current airway management devices. Compliant with DAS guidelines.

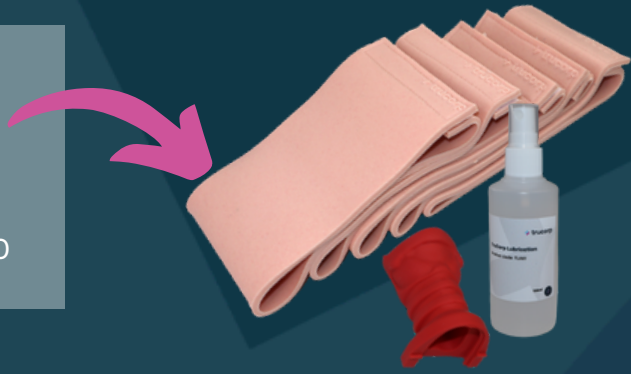

### PROCEDURE TRAINING:

- Oral and Nasal Intubation
- Bag/Mask Ventilation
- Needle and Surgical Cricothyroidotomy
- Percutaneous Tracheostomy
- Supraglottic Device Insertion
- Combi-tube Insertion
- Double Lumen ET Tube Insertion
- Diagnostic Bronchoscopy
- Lung Isolation Techniques using Left and Right Endobronchial Tubes and Bronchial Blockers
- Lung Suctioning Techniques

Product Code: DA91100  
Dimensions: 47 x 27 x 34cm  
Weight: 6kg

## RECOMMENDED ADD-ON:

- Super Saver Cric Training Pack (100 Procedures) Product Code: ATP0100

## ADDITIONAL INFORMATION

- Each larynx insert (NLX050) facilitates 1 cricothyroidotomy and 2-3 tracheostomy procedures.
- Each wrap around neck skin (RSN2005) facilitates 15-20 incisions.

## IDEAL FOR TRAINING:

- Critical care specialists
- Surgical airway instructors
- Anesthesiologists
- Surgeons
- Respiratory therapists

## UPGRADE YOUR MANIKIN

Expand airway training with the Bronchial Tree Upgrade - an anatomically accurate fourth-generation bronchi model enabling diagnostic bronchoscopy, lung isolation, and fibreoptic intubation. Exceptional internal detail supports realistic, repeatable practice.

**Product Code: BR100**

## TRAINING YOU CAN TRUST 1 YEAR PROMISE!

We are so confident in the quality and durability of our products that we provide a 1 year warranty on the AirSim Difficult Airway.

Product Code: DA91100  
Dimensions: 47 x 27 x 34cm  
Weight: 5.5kg
