WHAT IS THE AIRSIM PIERRE ROBIN X?

The AirSim Pierre Robin X is a highly realistic infant airway trainer, accurately replicating the anatomy of a 6-month-old with Pierre Robin Sequence. Developed in collaboration with clinical experts, it supports advanced training in challenging airway scenarios. Featuring a modular design and visual feedback, it is delivered in a durable carry case and backed by a 3-year guarantee for dependable performance.

WHY PURCHASE THIS MODEL?

Realistic Anatomy:

Based on a 6-month old and illustrates the various congenital defects of an infant patient with Pierre Robin Sequence including; significant mandibular hypoplasia, glossoptosis, cleft palate and a bifid uvula.

Real-Time Feedback:

User feedback through the visualization of stomach inflation and lung expansion.

Durability and Cost-Effective:

The AirSim Pierre Robin X is certified to practice 80,000+ intubation cycles without fail and is supported by a 3 year warranty.

Modular Design:

Modular design allowing for all parts to be changed within your organization (if required).

PROCEDURE TRAINING:

- Double Nasotracheal Intubation
- Endotracheal Tube Insertion
- Bag-Valve Mask (BVM) Ventilation Techniques
- Full Range of Supraglottic Device Insertion
- Direct and Video Laryngoscopy

TRAINING YOU CAN TRUST- 3 YEAR PROMISE!

We are so confident in the quality and durability of our products that we provide a 3 year warranty on the AirSim Pierre Robin X.
