

TruMan Trauma Adult

WHAT IS THE TRUMAN TRAUMA ADULT?

TruMan Trauma Adult is a trauma simulator designed for comprehensive emergency procedure training with a 2-year guarantee. Trainees can practice advanced interventions including chest drain, CPR, pneumothorax decompression and cricothyroidotomy. Featuring the AirSim Airway - designed using real patient CT DICOM data. With realistic anatomical landmarks, and cost-effective consumables, it delivers robust, hands-on training in trauma and airway management.

WHY PURCHASE THIS MODEL?

Anatomically Accurate:

- Realistic size, weight and appearance of an adult male.
- Easy identification of all anatomical landmarks for CPR, full head tilt with chin lift and jaw thrust to prepare the airway prior to resuscitation, with lifelike recoil during compressions.
- Chest drain inserts include layers of skin, fat and muscle for lifelike simulation.
- Anatomically accurate airway designed using CT DICOM data from real patients.
- Pelvic binding - includes anatomy such as, the iliac crest, greater trochanters and pelvic bone.

Advanced Trauma Training Capabilities:

- Chest tube insertion - facilitates surgical incision, blunt dissection, pleural perforation, and finger sweep.
- CPR training - achieve realistic depth, rate, recoil.
- Needle decompression - designed for realistic needle depth.

Portable & Zero Setup Required:

Delivered ready to use in a durable carry case for easy transportation and safe storage.

Durability:

Supported by a 2 year warranty, this unit has been tested for:

- 80,000+ intubation cycles
- 250,000+ chest compressions
- 3000+ needle penetrations for needle decompression

Ideal for Busy Classrooms:

- The modular design allows quick replacement of consumables, minimising downtime between training sessions.

Product Code: TTA0001
Dimensions:
110.5x46.5x52.5cm
Weight: 17.5kg

RECOMMENDED ADD-ON:

Super Saver Trauma Training Pack
Product Code: TTP0100
To ensure ongoing training is cost-effective, TruCorp offer a bundle consumables for 50 students.

PROCEDURE TRAINING:

- Chest drain of a haemothorax (4th, 5th & 6th Intercostal space - no fluid removal)
- Needle decompression of a pneumothorax (2nd and 5th intercostal space)
- Cardio Pulmonary Resuscitation (CPR)
- Identification of stomach distension
- Pelvic Binding
- Oral and nasal intubation
- Needle and surgical cricothyroidotomy
- Percutaneous tracheostomy
- Bag/mask ventilation
- Laryngeal Mask Airway (LMA) and supraglottic device insertion
- Combi tube insertion
- Lung isolation techniques - visual confirmation of isolated chest rise
- Accurate representation of oesophageal intubation

IDEAL FOR TRAINING:

- Trauma surgeons
- Military medics
- Paramedics
- Emergency medicine physicians
- ATLS educators

TRAINING YOU CAN TRUST- 2 YEAR PROMISE!

We are so confident in the quality and durability of our products that we provide a 2 year warranty on the TruMan Trauma Adult.
