## BoS 227 • STRUCTURE OF HAT FUNGI

Large model, in SOMSO-PLAST®. Submitted to Dr. rer. nat. Axel Meixner, graduate chemist and fungi expert, Stuttgart. The morphological features of all the major varieties of types of hat fungi can be seen on this model which comes in 4 sections. The juxtaposition of the various features on one and the same model not only provides assistance in learning how to identify the different species of mushrooms but also enables direct comparisons to be made between edible mushrooms, for example, and similar-looking poisonous ones. On a green base. Height: 45 cm, width: 40 cm, depth: 32 cm, (cap diameter 35 cm), weight: 5.4 kg
